CREATE · DESIGN · GROW

We help small businesses stand out online.

Content creation, websites and advertising, made fast by our AI team and checked by a human creative director.

ABOUT US

A creative studio with an AI team and a human eye.

Agentica Studio is a web and content studio based in Muscat. We make social media content, websites and ads for cafés, restaurants, salons, travel agencies and other growing businesses.

Our team of AI agents does the research, writing and design drafts at speed. Our Creative Director reviews and approves every caption, design and page before it reaches you, and nothing goes live until you say yes. The result is agency-quality work, delivered faster and at a fairer price.

AI speed

Drafts in days, not weeks. Research, copy and visuals are prepared by our AI agents.

Human approval

A creative director checks every piece for quality, accuracy and taste.

Arabic and English

Content written natively in both languages, never translated word for word.

Made for Oman

Local culture, Ramadan and Eid calendars, and the way Omani customers really search and shop.

AI speed.
Human approval.

WHAT WE DO

Everything your business needs to grow online.

Content creation

Reels, posts, carousels and stories planned every month, plus UGC-style videos that feel real and personal.

Websites

Attractive, fast, bilingual websites with scroll animation and 3D moments that turn visitors into customers.

Advertising

Scroll-stopping ad creatives for Instagram, TikTok and Snapchat, with clear offers and calls to action.

Social Hub

Our own AI social media management system that keeps your content organised, scheduled and measured.

WHO WE WORK WITH

Cafés | Restaurants | Salons | Travel agencies | Retail shops | Growing local brands

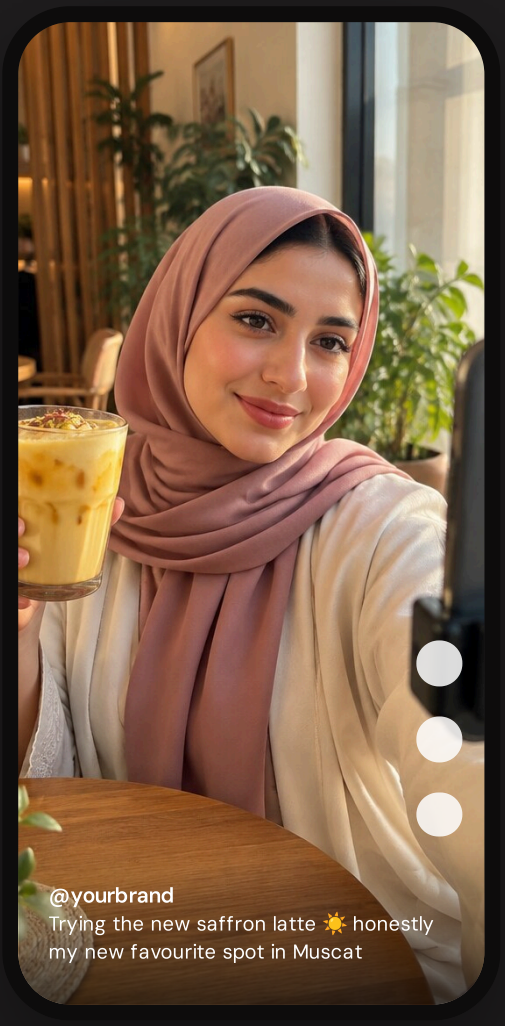

CONTENT CREATION & UGC

Content people stop scrolling for.

We plan, write and design a full month of content around your products, your space and your people, in your brand voice.

- Monthly content calendar built around local dates and seasons
- Reels, carousels, posts and story sets
- UGC-style videos: real people showing your product the way customers talk about it
- Captions and hashtags in Arabic and English
- Brand-consistent graphics in your colours and fonts

Why UGC works

User-generated-style content looks like a recommendation from a friend, not an advert. It builds trust quickly and feels natural on Instagram and TikTok.

Example UGC-style image created for illustration.

SOCIAL HUB · OUR AI SYSTEM

Managed with intelligence, grown with intention.

Social Hub is our own AI-powered social media management system. It is built to help businesses grow faster by finding what works, creating it, and publishing it on time.

01 Discover

04 Grow
Measure and improve

Content radar

Spots trending topics and formats so every post starts from a real signal, not a guess.

Content library

All your photos, videos and approved posts in one organised place.

Publishing queues

Reels, stories and carousels lined up and ready to go out at the best times.

Analytics

Clear reports on what is working, so each month gets better than the last.

AI agent team

Specialist AI agents for strategy, writing and design, working together on your account.

Automations & assistant

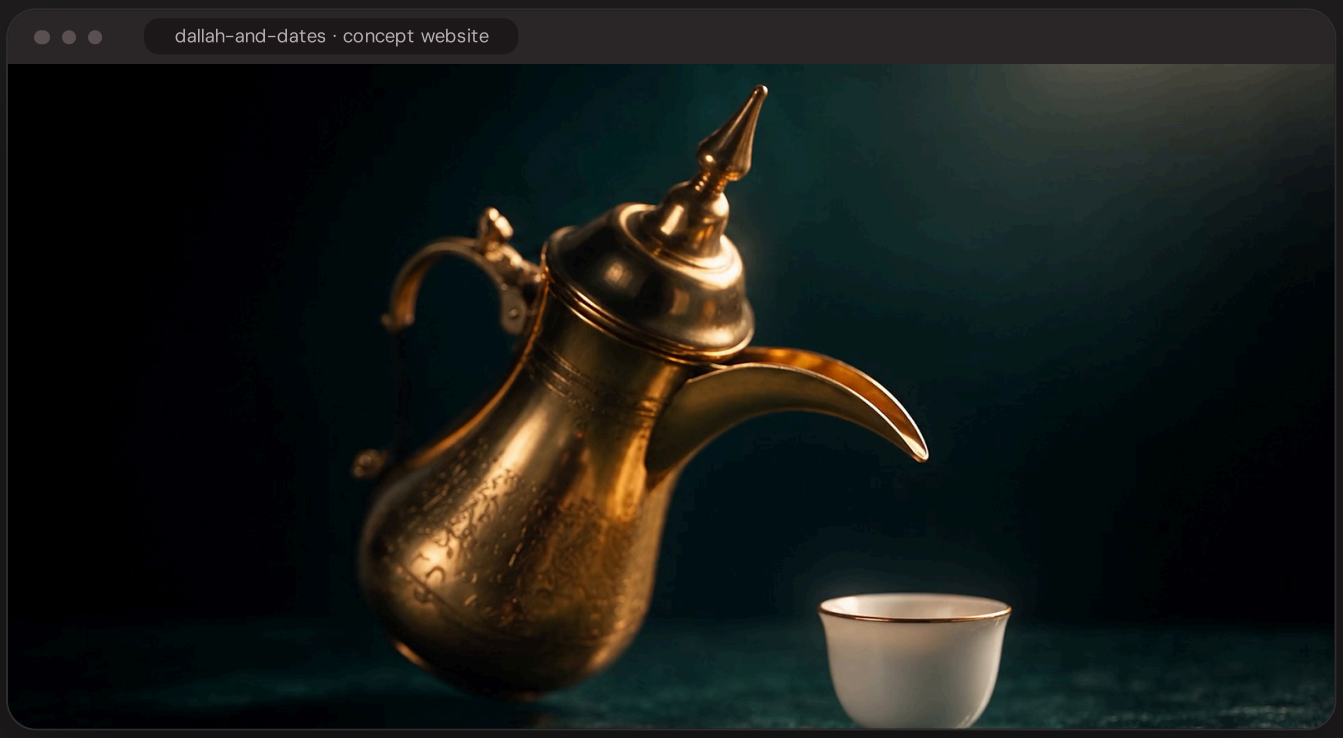

Routine tasks handled automatically, with an AI assistant ready to help. Arabic and English.

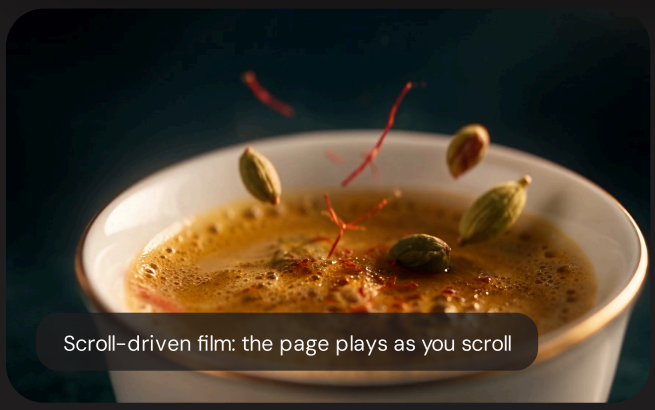

Included with our monthly content plans: your content, insights and next move in one workspace.

WEBSITES

Websites that feel like an experience.

We design attractive, mobile-first websites with cinematic scroll animation, bold visuals and clear buttons that turn visitors into bookings, orders and WhatsApp messages.

- Scroll animation and 3D moments
- Arabic and English, mobile-first
- WhatsApp, call and Google Maps buttons
- Fast loading and search-ready (SEO)

Dallah & Dates is a concept project created by Agentica Studio to show our website style.

ADVERTISING

Ads that make people stop, look and buy.

From product shots to full campaigns, we create ad creatives built for the feed: bold visuals, a clear offer and one simple action.

- Product and lifestyle ad photos
- Short video ads and UGC-style ads
- Seasonal campaigns: Ramadan, Eid, National Day
- Versions for Instagram, TikTok and Snapchat
- Headlines and offers in Arabic and English

One idea, many formats

Each campaign comes in feed, story and reel sizes, so your ad looks right everywhere it runs.

Example ad created for our concept brand Dallah & Dates.

HOW WE WORK

Simple for you. Fast for everyone.

You tell us about your business once, on WhatsApp or in a short call. We do the rest and you approve.

01
Brief
We learn your products, customers and goals.

02
Plan
Our strategist agent researches your market and plans the work.

03
Create
AI agents draft the copy, designs and pages.

04
Review
Our Creative Director checks everything.

05
Approve
You see it first. Nothing goes live without your yes.

06
Grow
We publish, measure and improve every month.

AI drafts it. A human checks it. You approve it.

That is our promise on every project, big or small.

LET'S WORK TOGETHER

Ready to stand out?

Tell us about your business and we'll send you a free plan for your content, website or next campaign.
